

OIL INDIA LIMITED — DRILLING SAFETY REPORT

Incident Report ID: OIL-DRL-2026-088

Site: Naharkatiya Well Pad 14 | Activity: Mud Circulation

Date: 2026-08-14 | Event Type: Near-Miss

Narrative Description:

High pressure mud hose vibrated violently and rotary whip check line parted under 3200 psi.

Assistant driller noticed the loose safety clamp and immediately initiated remote emergency shutdown.

Personnel evacuated rig floor before catastrophic burst occurred. No injuries sustained.
